

Table of Contents

Chapter 1: Baseline Analysis

Introduction	1-1
Relationship of the City to the Region	1-2
Existing Social and Economic Characteristics Analysis	1-5
Historical Population and Growth Trends.....	1-5
Population Characteristics	1-8
Existing Land Use Analysis	1-21
Analysis of Types of Land Use	1-21
Physical Constraints	1-30
Defining the Extraterritorial Jurisdiction (ETJ)	1-30
Analysis of Municipal Boundaries and ETJ Areas	1-30
Analysis of Major Topographic Features	1-30
Analysis of Municipal Boundaries and ETJ Areas of Surrounding Cities	1-30
Analysis of Existing Floodplain Areas and Natural Drain Features	1-31

Chapter 2: Vision

Introduction	2-1
Visual Character Survey	2-2
Overall Highest Scoring Images	2-3
Overall Lowest Scoring Images	2-6
Highest & Lowest Scoring Images by Subject	2-9
Images with the Lowest Standard Deviation	2-19
Images with the Highest Standard Deviation	2-20
The Questionnaire	2-21
SWOT Analysis	2-30
Public Workshop Input Exercise: Brainstorming Issues	2-33
Letters from the Public	2-35
Vision Statement.....	2-37

Chapter 3: Future Land Use Plan

Introduction	3-1
Future Land Use Goals and Objectives	3-2
Goal 1: A Balanced Land Use Design for Glen Rose	3-2
Goal 2: Enhancement and Development Downtown	3-2
Goal 3: Quality Development along Highway 67 and Highway 144	3-3
Goal 4: Maintain the City’s Openness and Small-Town Atmosphere.....	3-3
Goal 5: Encourage Green Construction	3-4
Recommended Pattern of Future Land Use	3-5
Future Land Use Categories.....	3-5
Future Land Use Calculations.....	3-10
Future Land Use Policy Recommendations	3-15
In Conclusion.....	3-27

Chapter 4: Livability (Corridor Design and Neighborhood Elements)

Introduction	4-1
Goals and Objectives.....	4-3
Goal 6: Urban Design	4-3
Goal 7: City Appearance.....	4-3
Goal 8: Housing Diversity within Neighborhoods	4-4
Goal 9: Neighborhood Stability.....	4-4
Goal 10: Livability and Sustainability Concepts	4-5
Corridor Design Recommendations.....	4-6
Corridor Description	4-7
Gateway / Entry Features	4-8
Landscaping Buffer.....	4-11
Building Materials	4-12
Building Articulation	4-13
Monument Signs	4-14
Incentives.....	4-15
Mixed Use Standards for Planned Developments	4-16
Connections to Surrounding Development	4-17
Volunteer Glen Rose Beautification Projects.....	4-18
Screening Refuse Containers, Loading Areas, and Outside Storage.....	4-19
Neighborhood Element Recommendations	4-21
Preservation of Existing Site Features	4-22
Neighborhood Pedestrian Connections.....	4-24

Sidewalks.....	4-25
Anti-Monotony Standards	4-26
Provision of Garages	4-28
Provision of Residential Landscaping.....	4-30
Full-Life Cycle Community	4-31
Platting Adjacent to a Creek	4-32
In Conclusion.....	4-34

Chapter 5: Infrastructure Assessment

Previous Planning Efforts	5-1
Infrastructure Goal and Objectives.....	5-2
Goal 11: Water, Wastewater, and Storm Drainage Systems	5-2
The Water System.....	5-3
Existing Characteristics	5-3
Considerations for the Future.....	5-4
The Wastewater System	5-12
Existing Characteristics	5-12
Considerations for the Future.....	5-12
The Storm Water Drainage System.....	5-13
Existing Characteristics	5-13
Considerations for the Future.....	5-13
General Infrastructure System Discussion.....	5-14
Assumptions.....	5-14
Land Use & Economic Considerations	5-14
In Conclusion.....	5-14

Chapter 6: Growth Management Strategies

Introduction	6-1
Growth Management Strategies Goals and Objectives.....	6-2
Goal 12: Population Projections	6-2
Goal 13: Prioritize Growth Areas	6-2
Goal 14: Annexations.....	6-3
Goal 15: Infill Development and Redevelopment.....	6-3
Goal 16: Programming for the Capital Improvement Plan (CIP).....	6-3
Goal 17: Municipal Infrastructure.....	6-4
Population Projections and Capacity	6-5
Past Growth Rates in Glen Rose	6-5

Ultimate Capacity: 32,425 Residents	6-6
Population Growth Rate Scenarios	6-7
External Factors Affecting Growth.....	6-9
Potential Growth Areas & Annexation Considerations	6-14
Annexation Policies.....	6-14
Infill Development.....	6-18
Identified Infill Development Areas.....	6-21
Infill Development Standards	6-21
Capital Improvements Planning.....	6-22
Funding Mechanisms	6-23
In Conclusion.....	6-25

Chapter 7: Park Recreation and Open Space Plan

To be added.

Chapter 8: Implementation Strategies

Introduction	8-3
Roles of the Comprehensive Plan	8-4
Regulatory Mechanisms.....	8-5
Implementation Strategies	8-7
In Conclusion.....	8-18

Plates

Plate 1-1. Relationship to the Region	1-3
Plate 1-2. Existing Land Use	1-23
Plate 1-3. Existing Land Use (Core Area).....	1-25
Plate 1-4. City Limits and ETJ	1-33
Plate 1-5. Physical Features	1-35
Plate 3-1. Future Land Use Plan Map.....	3-11
Plate 3-2. Future Land Use Plan Map (City Center)	3-13
Plate 4-1. Barnard Street & Highway 67 Gateway and Landscaping	4-9
Plate 5-1. Somervell County Water District Map.....	5-7
Plate 5-2. Water System Improvements.....	5-9
Plate 6-1. Southwest Parkway/Chisholm Trail.....	6-11
Plate 6-2. Potential Growth Areas	6-15
Plate 6-3. Infill Development Areas	6-19
